WEATHER KEY POINTS

08/08/21 - 08/14/21

Sunday-Saturday

- Slightly cooler temperatures return to most inland areas today and Monday, but with another round of moderate to locally high heat risk impacts forecast by mid and late week as temperatures quickly return to 100+ degrees for many inland lower elevation areas. Notably cooler temperatures will continue along the coast as onshore winds persist each day.
- Typical for the time of year, local gusty breezes in and around the foothills and mountains will provide elevated fire weather conditions most afternoons through at least Friday. Widespread strong winds are not expected.
- Scattered monsoon showers and thunderstorms are expected across inland southern California beginning Monday afternoon and continuing through next weekend. A few storms could also develop across the Sierra through mid and late week. Some storms on Tuesday could produce locally heavy rainfall across southern California.
- Smoke will continue to impact visibility and air quality at times across much of northern California through at least midweek
